Dental Definitions: Sealants

Sealants are plastic material applied to the back teeth to protect the enamel from plaque and acids. They bond into the depressions and grooves (pits and fissures) of the chewing surfaces of the back teeth.

The benefit of sealants is that they protect these vulnerable areas by "sealing out" plaque and food. Sealants can be applied quite easily and it takes only a few minutes to seal each tooth.

They are ideal for children, because the risk of decay starts early in life, but many adults can benefit from sealants as well.

Ask about them at your next appointment and we can tell you whether sealants would help your oral hygiene program.

New in the Office!

We're excited to incorporate another laser into our office. iLase by Biolase is the world's only completely wireless soft tissue laser.

The new laser will be extremely helpful in performing soft tissue, gum procedures- without shots!

Fun Facts About May

May was probably named after the goddess Maia, whose name means Spring or growth.

Especially in northern parts, it's when many flowers begin to bloom and birds are waiting for their eggs to hatch.

Three popular events celebrated during May:

Mother's Day is celebrated around the world in honor of mothers.

It is celebrated on various dates but, most commonly – as in the United States – on the second Sunday of May.

Armed Forces Day is celebrated the third Saturday of May to honor Americans serving in the five services – the Army, Navy, Marines, Air Force and Coast Guard.

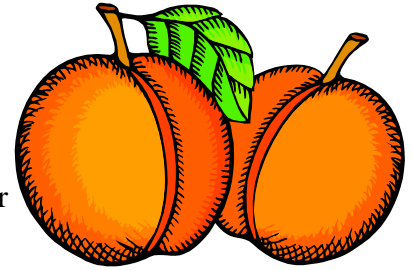

Memorial Day is a federal holiday celebrated on the last Monday of the month in memory of those who died while serving the United States in war. It has been observed since 1866.

Grilled-Peach Sundaes

If you've already got the grill going for dinner, you might as well grill dessert, too. Sprinkle fresh peaches with sugar and ginger, grill, and then coat them in a mixture of honey and lime juice.

Ingredients:

- 6 ripe peaches
- 3 tablespoons sugar
- 1 teaspoon ground ginger
- 1 lime
- 1/2 cup of honey
- Vanilla ice cream

Preparation:

1. Cut the peaches in half and remove the pits. Dust the cut side of each half with some of the sugar and ginger. Light a charcoal grill and allow the coals to burn until well covered with gray ash or heat a gas grill to low. Place the peaches sugar side down on the center of the cooking grate. Grill 6 to 7 minutes or until golden brown. Remove from grill.

2. Grate the zest from the lime, then squeeze the juice. In a small bowl, combine the juice, zest, and honey.

3. Serve the peaches with a scoop of vanilla ice cream, drizzled with some of the sauce.

Design a Special e-certificate for your Mom

Design a special e-certificate for your mother certifying her to be the best ever mother in the world. You can utilize your creative faculties and design the most ornate and beautiful e-certificate on the computer. After you have made it, you can just take a printout and present it to your mother.

Take care to write that your mother is the loveliest mother of all in this world. You can also include a thanksgiving note expressing how fortunate you are to have such a wonderful mother. You can create a colorful background with special designs and patterns. Certifying your mother to be the best and sharing with your mother exactly how it feels on having the best mother ever would gladden her heart infinitely.

The Month of **MAY** is...

Melanoma/Skin Cancer Detection & Prevention Month®

The American Academy of Dermatology designates the first Monday in May as Melanoma Monday®. The purpose of this day is to raise awareness of melanoma, a potentially fatal skin cancer, and to encourage early detection. With early detection, melanoma has a high cure rate.
